

# Glaucoma Masterclass

**6.30pm** Reception and Buffet

**7.00pm** Welcome

Nick Strouthidis MD PhD FRCSEd FRCOphth FRANZCO  
Moorfields Eye Hospital, London, UK

**7.05pm** Optic Disc Cupping: the view from the lab

Professor Colm O'Brien FRCOphth, PhD  
Mater Hospital, Dublin, Ireland

**7.35pm** Presentations from the Glaucoma Research Initiative Shortlist

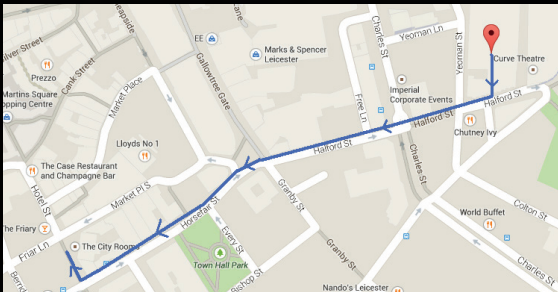

The authors of the top three submissions

**8.20pm** The Glaucoma Research Initiative Prize Giving

Professor Ted Garway-Heath MD FRCOphth  
Moorfields Eye Hospital, London, UK

**8.30pm** Close

Walking directions from car park to event venue:

## Event Venue

The City Rooms Hotel  
Hotel Street  
Leicester  
LE1 5AW

## Car Park

Leicester Rutland Centre NCP  
Rutland Centre  
Leicester

# The Heidelberg Engineering Academy Glaucoma Research Initiative

Following on from the launch of the Heidelberg Engineering Academy Glaucoma Faculty in 2013, we are delighted to introduce the Glaucoma Research Initiative. The Glaucoma Research Initiative is a £10,000 research grant, which will be awarded to the institution which submits the most innovative research proposal in the field of glaucoma. The top three entries will present their research proposals and the winning institution will be awarded with the funding at the Third Annual Heidelberg Engineering Glaucoma Faculty Masterclass on the 25th November 2015.

## **The Heidelberg Engineering Academy Glaucoma Faculty aims to:**

- Promote the value of using good technique, high-quality imaging and visual field solutions
- Inspire innovative research in line with the Sight Loss and Vision Priority Setting Partnership
- Transfer skills and knowledge within the glaucoma community on a national scale

## **To apply for the Glaucoma Research Initiative:**

- Please submit a one-page A4 grant proposal
- The submission deadline is September 30th 2015
- Submissions will be reviewed by a panel and the top three submissions will be shortlisted
- Proposals will be presented and the £10,000 research grant awarded at 2015 Heidelberg Engineering Academy Glaucoma Masterclass, which is taking place on the evening of Wednesday 25th November 2015 in Leicester prior to the UKEGS Annual Congress
- Research proposals don't necessarily need to be imaging-based. We are looking for any research in the field of glaucoma that is exciting and innovative
- Submissions should be sent to [Academy-UK@HeidelbergEngineering.com](mailto:Academy-UK@HeidelbergEngineering.com)
