EYE HEALTH CHECK

We can see the smallest change . . .
and that changes everything

Will you be the one?

One in two patients with diabetes are unaware they have the disease.

Diabetes is a serious disease that can cause sight loss. Early detection and treatment can reduce the chance of sight loss for 9 out of 10 patients with diabetic retinopathy.

With the SPECTRALIS 4D HD eye health check we see the smallest change before you do and that changes everything.
