

One in two cases of serious sight loss is caused by age related macular degeneration (AMD)

Will you be the one?

AMD can rob you of your central sight. Once this is affected simple activities like driving, watching TV and even recognising faces becomes impossible. With the SPECTRALIS 4D HD eye health check we see the smallest change before you do and that changes everything. Earlier detection of AMD allows for earlier treatment and a better outcome for you. Protect your future, book your eye health check today.
