

One in two patients with glaucoma don't know they have the disease

Will you be the one?

Glaucoma is a hereditary disease that is often called 'the thief of sight'. 50% of patients with advanced glaucoma are unaware they have the condition. With the SPECTRALIS 4D HD eye health check we see the smallest change before you do and that changes everything. Earlier detection of glaucoma allows for earlier treatment and a better outcome for you. Protect your future, book your eye health check today.
