HEYEX

The next generation HEYEX* is a comprehensive ophthalmic image management and device integration platform for full patient assessment and management. Its modular and scalable design makes it suitable for practices of all sizes.

HEYEX enhances diagnostic confidence by offering versatile clinical tools as well as comprehensive imaging, evaluation and management of clinical examinations in daily routine. Networking within your practice and across multiple locations allows for a streamlined workflow to give you more time to focus on patient care. The state-of-the-art technology of HEYEX provides enhanced data security and privacy.

Invest in HEYEX – a flexible, sound platform.

Platform for Ophthalmic Image Management and Device Integration

Your Advantages

Versatile Clinical Tools

HEYEX supports your decision making process by offering comprehensive imaging, evaluation and management of examinations. The ability to view multiple exams on a single screen provides an enhanced understanding of pathologies and a more effective clinical routine.

Enhanced Data Security

HEYEX offers automated archiving, extensive user and group management, powerful access control as well as comprehensive logging capabilities. It uses a state-of-the-art SQL database, and it fulfills even the most demanding requirements for data protection and data security.

Workflow Efficiency

HEYEX is designed to drive workflow within your practice and across multiple locations. As a single, centralized IT solution, HEYEX interfaces with electronic medical record systems, allowing for the exchange, storage, and dynamic review of diagnostic images. A streamlined workflow allows you to spend more time focusing on your patients.

Sound Investment

HEYEX is a reliable platform based on a scalable design that allows it to grow with your practice. Whether you are looking to connect new devices, network multiple locations or exchange information with referring practices, HEYEX provides a solid platform that gives you flexibility for the future.
